Facility and Event Management

Full-featured solutions to event and facility registration

Shelby's partnership with Cool Solutions Group provides users with event scheduling solutions, as well as work-order and facilities management software.

COOL Offerings

MINISTReSPACE

ministrEspace is the easiest-to-use room/event/resources scheduling solution on the market today. Schedule spaces, resources and human interaction associated with an event. ministrEspace is 100% web-based and its PRO version provides for unlimited users. Eliminate double booking of spaces as well as the bottle neck of a single person controlling the calendar.

- Easy set up
- Single source for all space scheduling needs
- Multiple user access from any web access point
- Public and private calendar views
- Display public calendars on website
- Communicates with facilitEspace software
- Interfaces with Shelby Arena

FACILITeSPACE

facilitEspace assists churches to efficiently and effectively address facility-related maintenance issues. This 100% web-based application is easy to use and cost effective.

- Service Request Processing
- Work order management
- Vendor tracking and assignment of work
- Equipment tracking
- Scheduling of recurring preventive maintenance items
- Multiple user access from any web access point
- Communicates with Shelby v.5 Resource Calendar and ministrEspace
