

# Shelby Add-ons

## Integrated Hardware and Software to Enhance Your Ministry

Shelby's Add-ons include a variety of tools that integrate with your Shelby Systems software to enhance the management and organization of your ministry, as well as to simplify everyday tasks. From Check-In hardware to Bulk Mailing software to Remote Deposit with check scanners, these extensive integrations are ready to empower your ministry, saving you both time and money.

### Shelby's Add-Ons

#### Barcode Readers

Simplify your attendance tracking. Scan the bar codes of people present and the system will mark those who are absent. You can also scan bar-coded asset tags for the Fixed Assets module. Double the information, half the effort.

#### Check-In Hardware

Implement a nursery security program AND quickly track attendance with check-in hardware. Shelby offers label printers, label & receipt stock, touchscreen monitors & computers, barcode readers, ID badge printers, and check-in kiosk furniture.

#### Check Scanners

Canon's CR-Series Check Transport products enable Shelby users to benefit from the Shelby Teller module, a complete, Check 21-compatible, electronic check processing software that fully integrates with your Shelby data.

#### Fingerprint/Vein Scanning

Eliminate ID Cards, safeguard members and children, and offer a faster and more convenient user and staff experience. Save money and improve security through the innovative use of biometric software and readers.

#### Shelby Mailroom

Address management system that integrates with your Shelby data to increase the efficiency of your bulk mailings.

#### MOVE Agent

MOVE Agent works with your Shelby Mailroom to correct addresses via the National Change of Address (NCOA) database and CASS certifies them all in one process.

#### Phonetree

Telephone, text (SMS), and email messaging system invented in the church community for your specific needs. PhoneTree integrates with your Shelby software to facilitate your church's communication needs. An online option is also available with no need for hardware.

#### Phonetree VoiceWave Online

Allows you to make thousands of calls in just minutes via the Internet. Perfect for weather-related emergencies or urgent messages, VoiceWave Online will keep your members informed and involved with comprehensive voice, text and email messaging without having to purchase any hardware

#### Shelby Teller

A complete, Check 21- compatible, electronic check processing software, from ProfitStars, that fully integrates with Shelby's software. This unique system scans and captures both front and back of check images, tithing envelopes, or other financial documents.

#### TimeClock Plus

Improve accuracy by reducing calculations with TimeClock Plus. It also helps manage work schedules – adding people as needed, avoiding unnecessary overtime, monitoring attendance etc., and then transfers the information into Shelby Payroll.

#### Background Screening

Ensure security by running employee and volunteer background checks. An individual's information from within Shelby will automatically populate the request form. Through this integration with Protect My Ministry, you choose from packages and services designed specifically for faith-based organizations.

### Facility Management

Shelby has partnered with Cool Solutions Group, who answers the need for inexpensive, web-based, ministry scheduling software. This partnership provides a full-featured solution to event, facility, and work order management.

### Email Marketing

Using Constant Contact's email marketing is an easy, effective, and highly affordable way to get your message out to members and visitors. You can create high-impact, professional looking emails quickly, and with no technical expertise.

### Check-In Kiosks

We offer complete kiosk solutions, including: Check-In software, hardware, and kiosk furniture options. Our kiosk enclosures house all of your Check-In hardware safely, attractively and conveniently.

### ID Badge Printer Systems

Seamlessly integrates with Shelby's ID Badge Design feature in the GlobaFILE, Check-In and Registrations modules. Produce ID badges and key tags for your check-in system, employee identification, events or even school IDs. Even incorporate photos or bar codes for added security and automation.

## Partners

#### Document Storage Solutions

Provides Enterprise Content Management technologies, filing systems, format conversions, software installations, and onsite consultations to a growing list of customers across the United States.

Processes payments directly from Shelby's software, improving integration and reducing manual efforts. MinistryLINQ offers the latest processing technology using a fully certified Level 1 PCI-DSS platform, PA-DSS and Level-1 PCI compliance.
