

Merchant Providers

Payment Solution Providers

Shelby Systems has come together with various merchant providers to provide churches and non-profits with secure financial management. Whether it be online or onsite, it is possible to quickly and painlessly set up payment sites and accept credit and debit card payments.

MinistryLINQ

Shelby has partnered with MinistryLINQ to provide our customers with the ability to process payments directly from our software, improving integration and reducing manual efforts. MinistryLINQ is in the business of furthering the good works of churches and nonprofits by handling all risk and underwriting functions, initiating their own merchant and electronic check accounts and providing excellent service and support.

Payment Data Systems (PDS)

PDS is an official partner of Shelby Systems and a payment solutions provider that delivers payment acceptance, processing and risk/fraud management. We have been partners with PDS since 2006 to help manage customers' ACH and credit card processing requirements for e-Solutions. PDS, in concert with Shelby Systems, has created a PCI DSS compliant 'Hosted Pay Page'. All data entered via the 'Hosted Pay Page' and our CSR View applications are entered directly onto secure servers, minimizing the need to spend extra money to maintain compliance.
