

# Arena Standard Online

## Arena is Shelby Systems' browser-based Church Ministry System

Key elements include, membership and contact management, superior reporting tools, and simple grouping and search options. With connectivity from virtually anywhere, you have all the tools you need to connect your front office, back office and extended field of influence.

Arena Standard Online is loaded with the most commonly requested features to help you manage your ministry. Combining group management, communication tools and much more makes this product a tremendous value. With a pricing plan designed with your church's budget in mind, your ministry is able to utilize the latest technology to manage data. Arena Standard Online is ideal for the church that wants an intuitive and powerful way of expanding its ministry.

### Arena Standard Features

#### Membership

Arena's membership comes complete with an extensive set of tools and intuitive interface. This combination makes capturing, analyzing, and reporting member and visitor information simple yet powerful.

#### Communications

Communication is the key to relationships and Arena offers a growing list of communication tools to reach your members.

#### Contributions

Arena Contributions allows quick creation of batches and entry of weekly offerings and pledges. It displays previously entered batches and allows searches by gift date, name, fund, payment type, and transaction details.

#### Tags/Groups

In those situations where you need to quickly group together a set of members or visitors, Arena Tags are your answer. Tags are also used to manage your groups, classes, choirs and more.

#### Attendance

Need to know who is attending regularly? Want to track who has missed three weeks in a row? Arena makes tracking attendance easy.

#### Community

The Community is the family of all Arena users, developers and preferred partners. The Community is also a place created for all Arena clients to discuss, challenge and encourage one another.

# Frequently Asked Questions

## **Does Arena Standard Online integrate with Shelby Financials Online (SFO)?**

Yes, Arena co-exists with the Shelby Financials Online application. Contributions update your General Ledger, person records are in sync with Accounts Payable vendors, and more. All of this is done behind the scenes without the need for user interaction.

## **What do I need to run/use Arena Standard Online?**

A common browser (Chrome; Firefox; Internet Explorer or Safari, etc.) is all you will need to access and use Arena Standard.

## **Can Arena be accessed through a Mac?**

Yes, requiring only a standards-compliant web browser.

## **How secure is my data?**

The data resides on our servers allowing you to focus on your ministry, not I.T. You have the ultimate determination of who can access it. You are able to set user security levels according to roles within your church staff, down to the individual user.

## **What is the reporting like?**

Users can create their own reports using a simple, yet extensive report wizard. There are numerous existing reports and unlimited sorting and filtering options.

## **How in-depth is the training?**

Arena is very intuitive to use. Additionally, we have an extensive collection of online videos to assist with your training needs.
