v.5 Church Groups

Groups play an important role in the life of the church. v.5 Groups makes it easy to setup and manage small group models like traditional Sunday School structures, Bible study groups and discipleship groups.

Features and Benefits

- Track small group information including meeting days/times, frequency, leadership, topics, geographic area, intended membership, and enrollment caps
- Utilize the tree structure to quickly view small groups and associated group leader and group member details
- Relate group information with member records to track developmental steps
- Archive group history including original parent group, multiplication/expansion history and inactivated groups to track group development
- Analyze group attendance to measure interest in specific topics or affinity groups
- Integrates with Attendance, Check-In, GlobaFILE, Membership, Prospects, and Servant

- Generate Reports to analyze group growth and group health such as expansion or multiplication, record of specific groups and specific leaders, projected expansions, attendance, assimilation rate
- Encourage leadership to nurture relationships by reviewing the participation numbers per paid staff area of responsibility, training scheme for preparing and equipping new leaders and an accountability model promotes active communication
- View specific group details including: relationships and levels, meeting details, progression (parent, child)
- Facilitate easy data manipulation and analysis via spreadsheets
- Incorporate e-Groups to manage group life online: post attendance, edit meeting times, update projects and schedules, view/edit member lists and discussion topics.
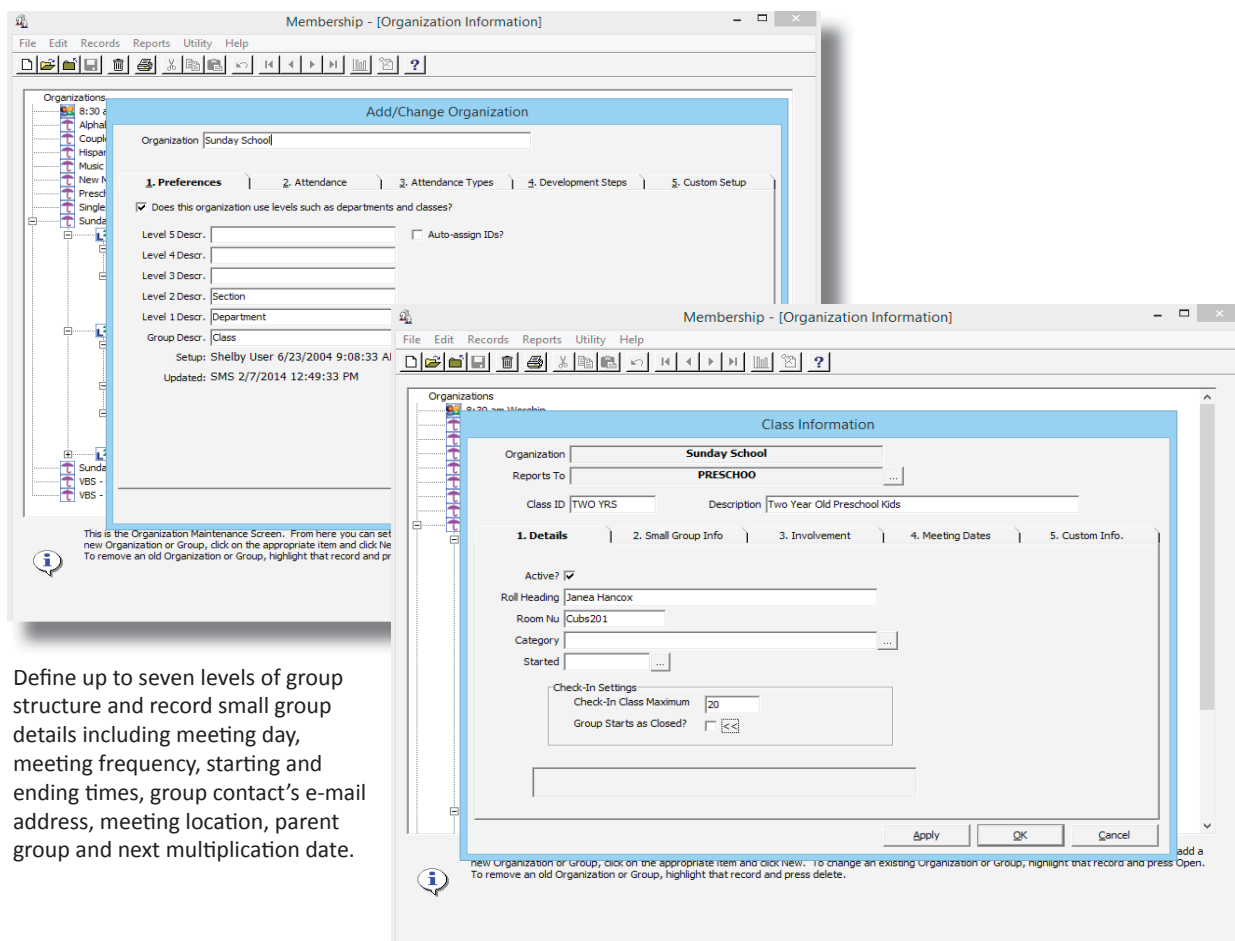

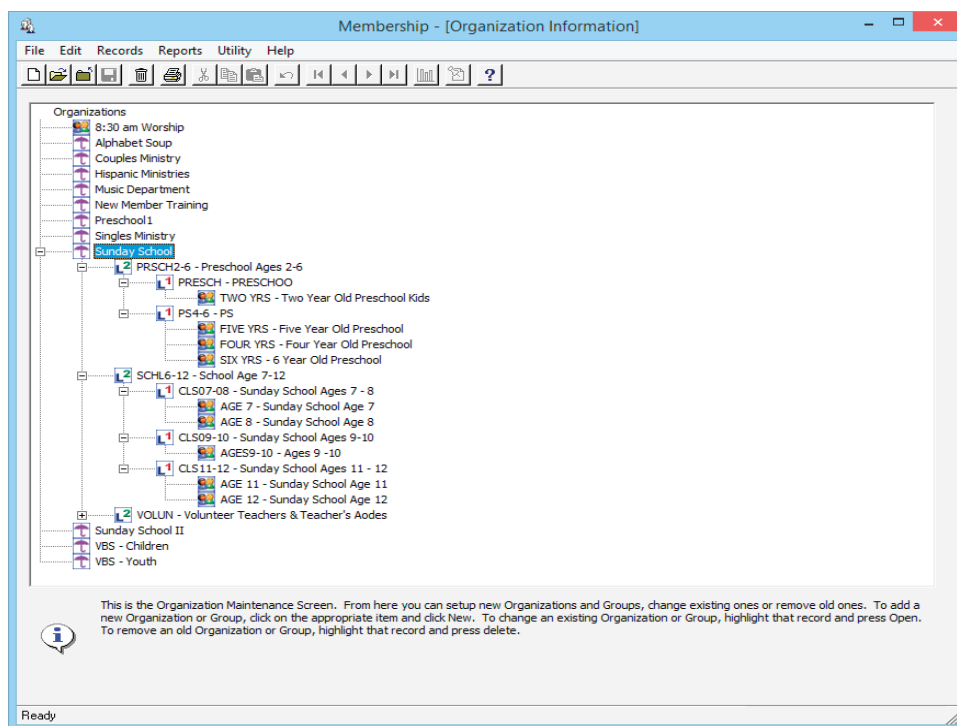

Required modules:
- Attendance
- GlobaFILE
- Membership

Optional module(s):
- Check-In
- e-Groups
- Prospects
- Servant

shelbysystems

Define up to seven levels of group structure and record small group details including meeting day, meeting frequency, starting and ending times, group contact's e-mail address, meeting location, parent group and next multiplication date.

The Groups module's tree structure offers a user-friendly way for your staff to quickly view small groups and associated member details.
