

Premium Inventory

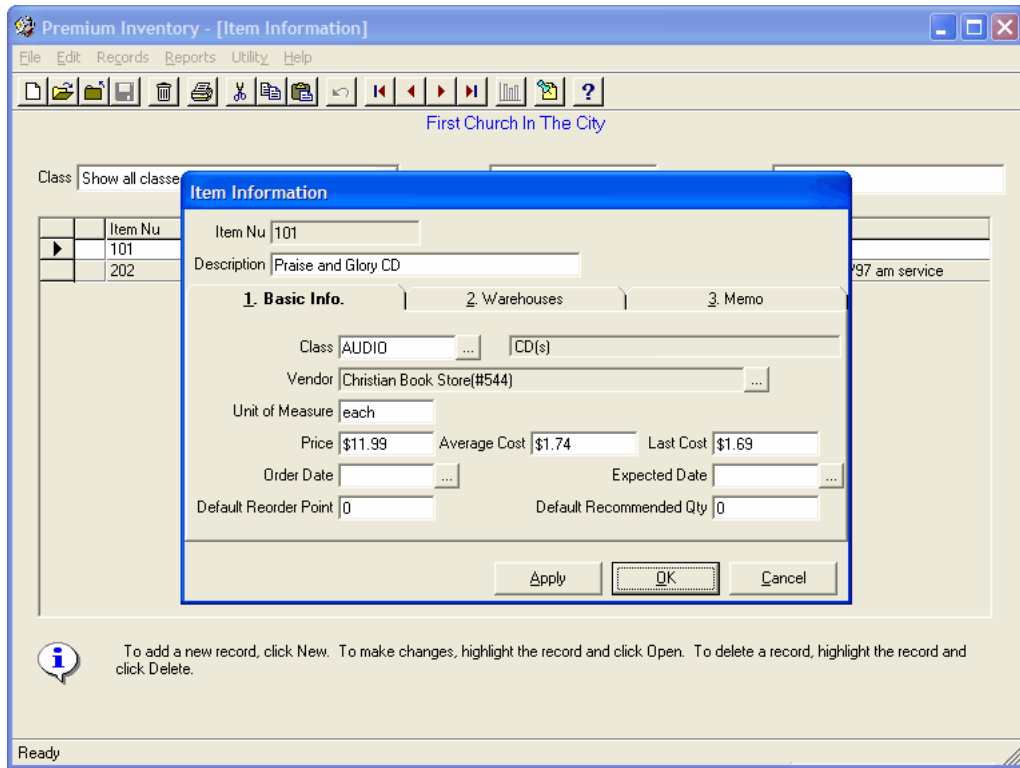

This module tracks premiums and products associated with fund-raising campaigns.

Features and Benefits

- Track actual stock: beginning amounts, receipts, adjustments from manual inventory count, premiums flagged as a result of a gift.
- Print “exceptions” report showing the stock that is below the desired amount.
- Print inventory count sheet to do physical recording of premium/gift stock.
- Reduce deductible amount of the gift by value of the premium.
- Produce “picking” list: fulfillment request for the day’s premium.
- Interface with word processing to print packing slips and labels.
- Audit capability assures good stewardship of monies received.
- Analyze premiums to determine what “draws” better.

Required Modules:

- Donor and Gifts

User-definable items, categories and prices.
