## shelby на ShelbyQuery

This module enables you to produce reports utilizing your expertise of Microsoft<sup>®</sup> Transact-SQL. It is designed to meet those unusual reporting needs for users who have some experience with report writers.

## **Features and Benefits**

- Front-end programming to MS SQL.
- Inclusion of all database tables with complete descriptions.
- Unlimited report combinations.
- Accessed through the program menu.
- Paired with Excel<sup>®</sup> pivot tables for on-going, real-time information.
- You do not have to leave programs to create and produce reports.
- Database table descriptions are easy-to-understand, you don't need to be a programmer to know which fields to use.
- This gives you an alternative to the standard reporting for customized reports.
- Once you create a report and save it, it is always available to be used with current information.

## **Required Software:**

• GlobaFILE
