Arena

Check-In

Arena's Check-In provides design flexibility, management tools and attendance tracking. Check-In screens can be customized around your classroom themes, special events or multiple worship services. The family check-in process is efficient and friendly. Attendance is tracked in real-time with reporting or kiosk quick-glance updates as well as room ratio management.

Check-In (and more importantly, Check-Out) procedures are administratively controlled, ccommodating your ministry needs and insuring best practices for child safety.

It provides the most common options for central kiosk setup as well as multiple kiosk use. A large selection of accessories are available, including kiosk furniture, touch computers, barcode scanners, cameras, biometric scanning, label, wristband and receipting hardware.
