† Some cards, such as American Express, are more expensive to process. In the event an accepted card costs more to process than your plan's transaction fee, the processing fee for that transaction may be slightly higher. American Express is typically the most expensive card to accept, around 2.8%. Our system's historical data tells us that you can expect 10% to 30% of your donations to come from these types of cards, if you choose to accept them.

\* \$10 monthly minimum for processing under \$300/month .
