

Canon CR-Series Check Scanner

Canon's CR-Series Check Transport products are designed to enable users to benefit from the Shelby Teller module. Shelby Teller is a complete, Check 21-compatible, electronic check processing software. This hardware allows your system to scan and capture both front and back of check images, tithing envelopes, or other financial documents. You can also use this functionality to scan directly into Contributions.

Features and Benefits

- The Canon CR-120 scanner meets the requirements for distributed check and remote deposit capture, offering affordability, high performance, and ultra-reliable design.
- The high-speed Canon Check Transport CR-120 scans both sides of 120 checks per minute and simultaneously reads the MICR (Magnetic Ink Character Recognition) characters using its built in magnetic head.
- The Canon scanning devices offer unmatched image quality and reliability for check capture at the first point of presentment.
- Supported operating system for CR-120: Windows Vista 32-bit and 64-bit (SP2 or later); Windows 7 (SP1 or later); Windows 8.1 32-bit and 64-bit; Windows 10 32-bit and 64-bit; Windows Server 2008R2/2012R2

Requirements:

- Contributions, Donors and Gifts, Accounts Receivable, Bank Reconciliation, or Remittances
- USB
